Title: REGULATING HEAT EXCHANGE AND COOLING METHOD AND SYSTEM
FOR MONITORING AND CONTROLLING THE TEMPERATURES OF WALLS
SUBJECTED TO HIGH TEMPERATURES

REQUEST FOR WITHDRAWAL OF FINALITY OF REJECTION

Assistant Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

February 7, 2008

Sir:

On August 13, 2007, an Official Action was sent out which dealt only with claims 1-3 and objected to claims 4-13 on the ground that they were multiply dependent. In fact, however, the preliminary amendment was filed with the application correcting the multiple dependency.

So we requested an action on the merits of all the claims, and the setting of a new period for response, in a paper filed on August 20, 2007.

We now have received an action on the merits of all the claims, in an Official Action dated February 1, 2008.

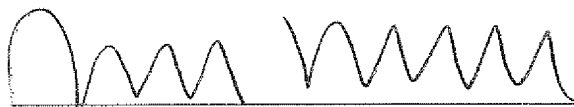

But that action has been made "final".

It should not have been made "final", because claims 4-13 were never acted on as to merit and the rejection of claims 1-3 was never responded to by us. Thus, the Official Action of February 1, 2008, should only have been a corrective action, completing the Official Action of August 13, 2007, and setting a three month period for response, non-final.

Accordingly, the withdrawal of the finality of the Official Action of February 1, 2008, is respectfully requested, with the request that we be promptly notified of that withdrawal.

Respectfully submitted,

YOUNG & THOMPSON
